City Officials and Prominent Citizens Guests of Western Pacific Railroad.

SEE GREAT WHITE EMPIRE

INSURES COMFORT OF ALL.

Salt Lake was without a city administration yesterday. The Western Pacific had kidnaped, in a kindly way, all of the officials who did not miss the train, and conveyed them, amid palatial surroundings, through a wonderland which lies at the very western gates of the city. And then, turning about after having traversed 129 miles constantly punctuated with exclamations of admiration at the marvelous views, brought them back to their own roof trees safe and sound at the rate of, on one stretch of track, twenthe rate of, on one stretch of track, twenty-four miles in twenty-six minutes.

When Engineer J. P. Clarke pulled open the throttle of that new compound, No. 75, yesterday morning, at the Denver & Rio Grande depot, four Pullmans, a baggage coach and a diner were tacked on behind. It represented the special inspection train to whose velvet cushions had been invited the city fathers by President E. T. Jeffery of the Western Pacific for a nice little junketing trip to the Utah-Nevada state line. The dining car had been brought from Denver, a distance of 800 miles, expressly for this trip.

Over steel tuned to a symphony of perfect alignment the train bowled merrily along, across the Jordan into the land of mystery, the land of enchantment, the land of prodigious promise. Out of civi-

land of prodigious promise. Out of civilization into the country of nowhere the leap was taken after crossing a long reach of the Great Salt lake and its waterless waste to the west. The train nosed noise lessly a curling trail through the scat-tered buttes of the Oquirrhs and topped the low divide which for unknown ages has arrayed its rocky regions against the or slaught of the Valley of the Skulls. Interminable waste is here, to the south, to the north, with the twin steel thread bereare clustered lonely bunches of sage-brush, but even these disappear as the miles slip by and the alkaline constituto the south and the rorth mesas rise to the foothills, and frothills to grim mountains in the distance. And on these times and on these hills during the winter season 700,000 sheep graze. But they do not come down to the far stretching for this is the incention of the walk without support, he alighted from plain, for this is the inception of the Great American desert.

Footprints on Sands.

op was made for water. Beside the legraph poles which stretch their lonely helegraph poles which stretch their lonely lengths into the far distance were noted the tracks of men. There was human habitation here. But the construction engineer who built this stretch of track says that those footprints were made by the men who constructed the line three the men who constructed the line three years ago. Those laborers had literally left footprints on the sands of time.

More and more did the sense of desolation grow. Farther and farther away the mesas and foothills retreated, until they faded into the horizon line. And then the atmosphere took on a subtle change. There was a perceptible salt tang in the air, while here and there appeared on the vast plain glistening patches of white. And then all at once the soil disappeared. Nothing but white was now seen, scintillating in its brilliancy, here and there as the train rushed by.

It was one vast deposit of solid salt, collected in this great valley through vast ages, and fed, glacter-like, by eternal springs in the foothills of the Deep Creek. lation grow. Farther and farther away aboard the train Oct. 9. ages, and fed, glacier-like, by eternal springs in the foothills of the Deep Creek American desert. The water attains a springs in the foothills of the Deep Creek region far to the south. It is the greatest deposit of salt in the world, comprising about 500 square miles of area, with a depth varying from 2 to 16 feet. A mathematician yesterday roughly estimated that there was enough salt in this one great lake to give every inhabitant of the earth ten pounds and then have of the earth ten pounds and then have north into the Silver Island district.

Lake Bonneville, as it is called, has a vast underlying saline soil. The springs

The mines at the latter place are all

Agreed appear here and there along its surface, only to disappear through the stimulus of a fresh breeze. The Deep Creek mountains, apparently but a short distance away, recede to fifty miles when the transit is used. They are capped by snow-covered Mt. Ibapah, rearing a frosty head nearly 14,000 feet into the heavens. To the north and fifteen miles distant the Silver island range make their long trend. It is here that Harry and J. W. Shipler took a panoramic photograph of the train and the guests. It will be eight feet in length when completed.

Wastern the train and the guests. It will be eight feet in length when completed.

In the near future, when the Western Pacific will have completed its iron link the Western Pacific, will in the near future afford much tonnage for this pions. to the waters of the Pacific, Lake Bonner road in its minerals. Many low grade breath with Yellowstone park, with the

ceive a favorable decision from the surate western Pacific runs through (15) wast deposit for a distance of nearly ten miles. Milway a depot has been placed and named Salduro. Its thanslation is "eternal salt." And in this saline area the engineering department of the new road encountered its greatest difficulty. Teams could not work over it. Plank foundations were laid and the tracks were mallasted from the cars.

ballasted from the cars,

a few miles from the town of Wendover, 120 miles from Salt Lake and thirty yards from the Nevada state line. Wendover, which is a Druid word meaning "over the wastes," has a round house, a water tank, coal chutes, and sixty inhabitants. The Western Pacific spent \$127,000 on a pipe line which brings effervescent water from a distance of twenty-seven miles. And it is from here that water is hauled to the Cations throughout the Great

Wards of the Wizard of the Wasatch Will Meet Tonight.

The Wards of the Wizard of the Wasatch will be the hosts tonight at a joy party given for one thousand guests. The party will be a delightfully informal affair which will be accompanied by mystic, comic and tragic ceremonies. The evening will be given over largely to mirth, but there will also be serious phases of the meeting.

The Wards met last evening and completed the preparations for the big event. Arrangements have been made for some of the very best forms of entertainment. There will be "stunts" surpassing those of any theatre in the city. Too, there will be discussions of the plans for the big summer festival, the Carnival of the Wizard of the Wasatch, which will be held in Salt Lake next July.

The purpose of the meeting is to get the prominent business men of the city and the state together in an informal gathering to explain to them the character of the big carnival of next summer. The Wards of the Wizard have made all preliminary preparations for the fastival and party given for one thousand guests. The

J. H. Smith, formerly observer in Wards of the Wizard have made all pre-liminary preparations for the festival and these will be submitted to the meeting charge of the local weather bureau, is observer under Director A. H. Theissen.

large number of freight cars are on their way west. In the Salida shops are a number of locomotives which are being put into road condition preparatory to the opening of the Western Pacific about Jan. 1.

TERMAN HARMS, state chemist, has completed examinations of 23 samples of milk sold in Salt Lake. Seven were above the standard, and none below. The state chemist says dairy conditions on the whole are good.

THE CITY RECORDER received a letter from W. H. Bancroft, vice president and general manager of the Oregon Short Line Railroad company, calling attention to the insufficient drainage at the intersection of Third West and South Temple streets, and asking the city to pay attention to this matter when the of the Minnequa tribe of the Red Men in to pay attention to this matter when the streets are paved and new tracks laid by the street car company

FOUR NEW CASES of typhoid fever were reported to the city board of health yesterday as follows: Gus Diphman, aged 23, 220 West North Temple street; R. Harkness, aged 43, 110, 2001b. In addition to this charge, Hawman is wanted on account of various checks, ranging from \$10 to \$30, which he passed R. Harkness, aged 43, 110 South Ninth West street; Dale Turner, aged 7, rear 451 West Third North street, and Raya reward of \$50 for information that will lead to the apprehension of Hawman, and the Salt Lake police have been notified to be on the lookout for him.

JANET A. REID filed suit in the district court yesterday against the Salt Lake Route for \$414 damages for cattle killed on unfenced right of way.

MAY JONES, a negress, charged with carrying concealed weapons and high-way robbery, was given a preliminary hearing before Justice F. M. Bishop yesterday morning and bound over to the district court under a bond of \$759. It is alleged that the women held up a Greek on West Second South street a few nights ago. few nights ago.

JOY RIDERS" were evidently responsible for the disappearance of the auto-mobile belonging to Frank Doran, a contractor, late Thursday night. The theft was reported to the police early Friday morning, and the machine was found uninjured at Seventh East and Eleventh South streets.

WITH a lighted-sulphur match, an unknown young man proved himself to be "the Man of the Hour" at West Temple and Second South streets yesterday, where two savage bulldogs were "mix-Salt Lake, writes to Secretary J. L. "EAST LYNNE."

The always popular drama, "East Lynne," was put on at the Bungalow last evening, and will run three nights at that Lynne," was put on at the Bungalow last evening, and will run three nights at that house, closing on Sunday evening. "East Lynne" is one of the plays which never die and it has not lost its power with Salt Lake audiences.

The play is the farewell bill for the company, and the manager, Walter Arington, evidently determined that the last performances in the city should give a good impression. It is long since this old play has had a creditable production here, but the company now playing it is certainly giving it one. The scenery is beautiful and the play perfectly staged.

John Ince as Archibald Carlyle gives a strong and convincing interpretation old play has had a creditable production here, but the company now playing it is certainly giving it one. The scenery is beautiful and the play perfectly staged.

John Ince as Archibald Carlyle gives a strong and convincing interpretation of the role. He has handled nothing better since the company has played here, and he has had some good parts. Frances Brandt handled the difficult character of the Lady isabel with strength.

Mayme Arington, always a charming little actress, made a delightful Barbara, tender and loving, and her work will add to the popularity which has come to her o the popularity which has come to her

during the company's engagement here Florence Craig handled well the role o Miss Carney, and Isabelle Roberts was an excellent Joyce. Charles Harris, a good all-around actor, made a clever part of the character, Lord Mount Severn, and Harold Kennedy

and Thomas Pawley sustained well the lesser parts of Mr. Dill and Dick Hare respectively. Next week the company goes to Ogden for a brief engagement. SALT LAKE THEATRE. "A Gentleman From Mississippi,"

with a record of one solid year in New York, comes to the Salt Lake theatre for a week's stay, opening Monday night, with matinees Wednesday and Saturday. It is a buoyant and joyous comedy, American to the core, built upon the theme of honesty in our highupon the theme of honesty in our highest lawmaking body—the senate of the United States. There is a typical statesman of the south, big of brain and bulk, chivalric, courtly, sagacious, but as ingenuous as a child. Shoulder to shoulder with him, in defeating a corrupt scheme, is his northern secretary, an alert, aggressive, humorous and sophisticated young New Yorker. Such a combination is unique and irresistible for dramatic purposes. This very human comedy, through which laughter breezes merrily for three hours, has a serious purpose. laughter breezes merrily for three hours, has a serious purpose.

Nearly all of the characters are southerners, whom kindred interests have united at the national capital. Their peculiarities of manner and speech lend color to the play, which is wholly without sectional bias. No play in America is better known, more widely discussed in print and by word of mouth, or more eagerly discussed

COLONIAL THEATRE.

throughout the country.
